Job Code: ADVISE

Summary:

Don't just teach life or physical science...be a part of making science come alive at Indianapolis Metropolitan High School, affiliated with Big Picture™ network of schools.

- ☛ Position Description: The science advisor will facilitate learning for students in grades 9-12 in life or physical science concepts as well as laboratory procedures using a variety of methods to include project-based learning, inquiry, manipulatives, technology, and differentiated instruction. The science advisor will work within an interdisciplinary team to mold the educational experiences of a diverse group of students.
- ☛ Mission: To create schools centered on authentic relationships in addition to relevant and rigorous learning that ensures all students are prepared for life and learning far beyond high school.

Relationships + Relevance + Rigor = Results

Responsibilities Include:

- ☛ Content – specific responsibilities:
 - ▲ Develop secondary science lessons to be taught in isolation as well as within an interdisciplinary theme through collaboration with other grade-level content specialists that is designed to push students to a higher level of cognitive reasoning.
 - ▲ Deliver secondary science lessons using a variety of methods that may be taught independently or with a team of other grade-level content specialists designed to guide students toward mastery in science content.
 - ▲ Assess secondary science lessons both summatively and formatively using traditional as well as alternative assessment techniques.
 - ▲ Facilitate scientific learning within student projects and internships that is both challenging and meets the individual needs, interests, and abilities of each student.
 - ▲ Assist students in developing meaningful projects through inquiry and utilization of project-based assessment to demonstrate growth and depth of understanding of concepts.
- ☛ Advisory-based responsibilities:
 - ▲ Build a positive relationship with a small group of students over a four-year period.
 - ▲ Facilitate a small group of students to maximize their educational experience through diverse experiences to include interest-based projects, internships, service – learning projects, college classes, as well as educational experiences offered through the grade-level interdisciplinary team.
 - ▲ Ensure students' development in areas of public speaking and presentation skills for the required student exhibitions.
 - ▲ Ensure students have necessary life skills to succeed in high school as well as beyond high school.
 - ▲ Hold students accountable to a high standard both academically and behaviorally.
 - ▲ Possess a valid Indiana driver's license and automobile insurance that allows for the transportation of students.

Qualifications:

- ☛ Education
 - ▲ Bachelor's degree in a science – related field.
 - ▲ Current Indiana Teaching Certification in Secondary Life or Physical Science
- ☛ Experience
 - ▲ Work with diverse populations
 - ▲ Work with high school age students

Benefits:
